

Conformation Show Workshop

By Ivana Karlsen
New England Breed Warden

Part 1:

How to host a successful show

- **Audience:** All clubs interested in putting on a show.
- **Overview:** Learn all aspects of hosting a successful show from planning phases to final execution.
- **Details:**
- Planning
 - Dates, Selecting a Judge, Event Authorization, Judge's Request Form, Place, Sponsors, Trophies, Vendors, Catalog Advertisement, Show, Breed Survey, AD
- Equipment Needed
- Paperwork
 - Entry Forms, Catalog, Show Cards, Dental Notation, Koerliste, Breed Survey Forms
- Introduction to Zooza, third party show registry website
- Show classes and requirements for each class
- Breed survey requirements
- Entry Fees
- Show Execution
 - Check In
 - Order of Classes
 - Ring Stewards
 - Breed Survey set up

Planning

- Dates
 - Check for show dates in surrounding regions
 - Avoid week before and after Sieger Shows
 - Avoid 2-3 weeks before/after German Sieger Show
 - Spring is in general easier to get an SV judge
 - If you have a certain judge in mind you might have to plan 2 years ahead
 - 2-3 weeks before a Sieger Show will attract people to enter dogs in the ring before the big show
 - Mid to end June and late October, early November are good months to get breed survey entries

Planning

- Selecting a judge
 - USCA judges
 - At this time we only have 2 USCA judges, Karen MacIntyre and Heidi Theis
 - Pros: easily accessible, less expensive, no language barrier, Karen and Heidi are working judges as well, possibility of hosting a working trial the same weekend.
 - Cons: will most likely get entries from USCA members only, can do USCA breed survey only
 - SV judges
 - Pros: will attract larger crowd, will draw GSDCA entries and more entries for breed survey since most breeders will only enter for SV breed survey.
 - Cons: more expensive (\$1000 - \$1200 plane ticket, \$250 judge's release), language barrier, most will require translator for the ring.
 - Securing SV judge
 - Plan ahead! Start looking for a judge at least 12 months ahead, plan in the fall for next season
 - Judge's Request Form must be submitted to Stephanie Dunion 6 months ahead, Event Authorization must be approved by Regional Director prior to submitting sJudge's Request Form
 - You can buy a plane ticket for the judge (sooner the better, 6 months is a good window) but Stephanie will take care of any problems that might arise, it's smart to spend \$40 for insurance in case the show needs to be rescheduled for whatever reason
 - List of judges:
https://www.schaeferhunde.de/fileadmin/SV/Documents/Broschueren/vrz_mw_600_anschriften_sv.pdf

Planning

- Place
 - Think if you want to use your club field. Dogs will defecate on the field, there is a possibility of ruining the grass where the ring was
 - Look for places as state parks, town parks with plenty of parking, preferably in the shade
- Sponsors
 - Look for sponsors early, dog food vendors, local pet stores, equipment vendors
 - Ask for raffle items/competitor bag items, trophy sponsorship
 - Exchange sponsorship for free catalog advertisement
- Trophies
 - Plan early to find reasonable prices, find someone with short lead time, order after entry deadline when you know how many dogs in each class
 - Medal for each competitor is a nice touch.
- Vendors
 - Be happy if someone's interested, no need to charge for vendor space.
 - Ask for donation to a raffle

Planning

- Catalog Advertisement
 - Check with local veterinarians, pet shops, grooming saloons, breeders
 - Suggested prices
- AD (Endurance Test)
 - Easy way to make extra money
 - Unlimited number of dogs
 - Watch the weather, plan on early morning or evening
 - AD will run about 2 ½ hours
 - Look for places where dogs can run on the grass
 - Plan AD before breed survey

Planning

- Show
 - Dog entered for a breed survey must obtain show rating before breed survey. For this reason it's better to schedule show on Saturday, breed survey on Sunday or show in the morning, breed survey in the afternoon.
 - Size of the ring

The ring is normally set up in a more oval shape. It is helpful to have an entrance on one end of the ring and an exit at the other end. Any brightly colored tape can be used to set the ring. I prefer an inner ring that is set at ground level and the outer ring's tape to be set approximately two feet from ground level. The two sets of tape should be approximately two to three yards apart. The size of the ring is determined by the size of the event. Figure about two to three yards per dog of the largest group entered for the length of the ring. A 20 X 30 yard ring would be more than enough for a small event.
- Breed Survey
 - The most involved part of the event
 - Make sure you get very familiar with all paperwork/procedures
 - Fill in paperwork way ahead, all information must be correct
 - Make sure you are using correctly classified helper
 - Offer practice for breed survey participants

Equipment

- Show
 - Posts and rope
 - Table and canopy for the middle of the ring
 - Gun and ammunition
 - Measuring stick
- Breed Survey
 - Same as above
 - Measuring tape in centimeters (can buy in a craft store)
 - Scale in KG
 - Platform to put the scale on

Entry Form/Catalog

- You need to create an entry form that provides you with all the necessary information you need for the show cards and the catalog.
- Create your own catalog with advertisements, greetings from your club president, regional director, regional breed warden, a list of sponsors, the schedule of events, and an index of exhibitors. The cover of the catalog should include the date and location of the show, the name of the judge, and the name of the hosting club. The classes in the catalog should be listed as followed (long stock coat classes follow stock coat classes):
 - Working Class Males
 - Working Class Females
 - Young Dog Males 18-24 mos.
 - Young Dog Females 18-24 mos.
 - Youth Dog Males 12-18 mos.
 - Youth Dog Females 12-18 mos.
 - Adult Class Males 24+ without title
 - Adult Class Females 24+ without title
 - Senior Puppy Class Males 9-12 mos.
 - Senior Puppy Class Females 9-12 mos.
 - Junior Puppy Class Males 6-9 mos.
 - Junior Puppy Class Females 6-9 mos.
 - Baby Puppy Class Males 4-6 mos.
 - Baby Puppy Class Males 4-6 mos.

Entry Form/Catalog

- Start with the number "1" for the first dog entered in the working class males. For example, if you have 15 dogs entered in the working class males, save some numbers for late entries and start with number e.g. 20 for the working class females and so on. . The catalog number and the show card number of the entered dog must be identical.
- The following information about each entered dog needs to be in the catalog:
Catalog number, full registered name of the dog, birthday, registration number, tattoo number, title(s), for breed surveyed dogs use an "*" in front of dog's name; sire's registered name, sire's registration number, sire's working title(s); dam's registered name, dam's registration number, dam's title(s); the breeder's name and location; the owner's name and location

Example:

- **1 *Canera von Pallas Athene, 04/14/99, USF5822, G-L4095, SchH3, Sire: *Romeo v. Pallas Athene, SZ1969636, SchH3, Dam: *Ricke v. West Germanien, SZ1898162, SchH1, Breeder: Jurgen Maibuchen, Germany, Owner: Laszlo & Cheryl Brasko, 17517 Orange St. Hesperia, CA 92345**
- All Breed Survey entries must also be in the catalog

Show Card

- Show cards can be ordered from the office or create your own

Show Execution

- Order of classes:
 - Puppy classes
 - Young
 - Youth
 - Adult Untitled
 - Veterans
 - Working
 - Female classes before Male classes
 - Long Stock Coat classes immediately follow Stock Coat classes (Long Stock Class youth female will be right after Stock Class female)
- Gun shots: have a gun ready and loaded, dogs over 12 months of age will be tested for gun sureness.

Show Execution

- Have a measuring stick ready in case judge wants to measure the height of a dog.
- Ring Steward
The ring steward keeps control in the ring and assists the judge in anyway requested. It is his/her responsibility to have the participants for each class line up in the ring in the same order as the numbers in the catalog. The ring staff also make sure that handlers do not change their placing unless the judge tells them. In general one or two helpers are sufficient to keep the ring clean and maintain control. A qualified ring steward (breed warden) can assist the judge with tattoo/teeth/testicles check.

Breed Survey Execution

- Make sure you collect ALL original documents, breed survey forms are filled and signed by dog owner; create a folder for each dog.
 - Certified Pedigree
 - Score Book
 - Prove of hip/elbow certification
 - Breed Survey certificate (Koerliste) if previously breed surveyed
- Talk to the judge about the execution, each judge has a different system
- Normal schedule of events:
 - Dogs are presented to the ring for gun sureness test
 - Bitework part of the breed survey
 - Individual evaluation

Breed Survey - Protection

- Please refer to USCA Breed Survey Regulations, section 6.3 for protection work execution
