

## EAF Request Form

This is the new form that will replace the current form on the USCA website. It will be available in the members only section as is the current version.

Here are the enhancements to the form

- When region is selected, the club name lists are populated with all clubs except those that are dissolved
- Can select up to 3 club names in case some are co-hosting
- If you would like Spring, Summer, Fall or Winter to appear in the event name you can select the season
- Since a club may hold a Breeding Evaluation, Breed Survey and Character Assessment on the same weekend, they will need to break those out individual(y) along with the actual start and stop dates
  - If the Breeding Evaluation and Breed Survey are on Sunday enter that date. If the WB is on Saturday enter that date
  - Because of how event results are stored and displayed when submitted a separate event is created for each. They will all share the same EAF number
